DETAILED ACTION

Allowable Subject Matter

Claims 1-52 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 1, the prior art of record taken alone or in combination, fails to disclose or render obvious and extrapolating a fluorescence spectrum, the fluorescence spectrum representing a spectral dependence of the fluorescent light over the spectrum, from the residual polarization reflectance spectrum and the full reflectance spectrum, in combination with the rest of the limitations of the claim.

As to Claim 15, the prior art of record taken alone or in combination, fails to disclose or render obvious measuring a minimum reflectance spectrum including a cross polarized component of the elastically scattered/reflected light; and extracting a fluorescence spectrum from the minimum reflectance spectrum, in combination with the rest of the limitations of the claim.

As to Claim 21, the prior art of record taken alone or in combination, fails to disclose or render obvious and extrapolating an unpolarized spectrum of the unpolarized light over the spectrum from the residual polarized reflectance spectrum and the full reflectance spectrum, in combination with the rest of the limitations of the claim.

As to Claim 31, the prior art of record taken alone or in combination, fails to disclose or render obvious an analyzing polarizer, at least one of a minimum detected polarization reflectance spectrum and a residual polarization reflectance spectrum being measured by the spectrometer and detector by adjusting the analyzing polarizer, wherein a spectrum of the

unpolarized light is extrapolated from the at least one of the minimum detected polarization reflectance spectrum and the residual polarization reflectance spectrum, in combination with the rest of the limitations of the claim.

As to Claim 45, the prior art of record taken alone or in combination, fails to disclose or render obvious a polarization discriminator, the polarization discriminator separating the elastically scattered/reflected light from the fluorescent light, the fluorescent light being substantially unpolarized, the elastically scattered/reflected light being substantially polarized; and a spectrometer, the spectrometer spectrally analyzing the fluorescent light and the elastically scattered/reflected light, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
